

# Integration - API

## Adding objects for monitoring

### Technical description

## 1 Introduktion

This product adds the companies/persons that you want to monitor on Synas's Bevakningstjänst at [www.syna.se](http://www.syna.se). The objects are placed in the folder Gemensam which is a general folder, it has no owner but is visible to all users of the customer.

The monitoring is administrated from the web, where you for example can limit the monitoring from events that generate copies to private persons or HB/KB.

**2023-12-04** Version 1.2 Possibility to add persons to the watch list

## 2 Anrop

<b>Action</b>	[URL]
<b>Method</b>	POST
<b>Produkt-ID</b>	BBevObj

## 3 Frågan

FRÅGA

```
<?xml version="1.0" encoding="iso-8859-1" ?>
  <Fraga>
    <Produkt id="BBevObj" ver="1.2">
      <Objektlista antal="1">
        <Objekt>
          <PMapp>Gemensam</PMapp>
          <PAgare></PAgare>
          <POrgnr>5561234567</POrgnr>
          <PEget>customer number</PEget>
        </Objekt>
      </Objektlista>
    </Produkt>
  </Fraga>
</?xml>
```

```
</Objektlista>  
</Produkt>  
<Kund nr="777777" anv="xxxxxxxx" />  
</Fraga>
```

### 3.1 Element

```
<PMapp>Gemensam</PMapp>  
<PAgare></PAgare>  
<POrgnr>5561234567</POrgnr>  
<PEget>customer number</PEget>
```

Folder - always 'Gemensam'  
n/a  
Id number of the objekt ; 10 digits  
Customers number of the objekt; 30 char

## 4 Svaret

```
<Objektlista antal="1">  
  <Objekt>  
    <Kvitto>OK</Kvitto>  
  </Objekt>  
</Objektlista>
```
